Editorial

The right position on the grid, knowing your rivals, seeing the gap to grab a position, a lot of concentration, skill, and strength. An outstanding team, cutting-edge technology, and determination. Essentially everything a great team needs to be successful. This is what **JHK** had to do to break into the market some 20 years ago now, providing unique solutions in the textile industry, growing every year, and ending up positioning themselves as one of the leaders of the textile industry in Europe.

JHK stands out as a business group for their competitiveness, their notable vocation for satisfying their more than 16.3 thousand customers, which in turn supply hundreds of thousands of end customers. **JHK** is a benchmark for sustainability, given the company's positive footprint in more than 30 countries around the world. They promptly adopt the latest technologies, streamlining their processes, helping to remain socially responsible regarding the environment.

However, if anything converts all this into reality, it is our products. They contain the essence of the company and the success achieved down the years. Products made using the best raw materials, with cotton a main player. Comfortable garments, when everyday wear poses a constant challenge. The extensive range of colours and pattern designs mean we can adapt to every market need. Ultimately and as it should be, the quality comes from the daily efforts of hundreds of people working with a high level of commitment, who come together to create the **JHK** world.

A world that we want to show you during this 20th anniversary, a world that continues to grow and remains a source of excitement as we look to the future. We want to continue our growth in Europe, expand further into the U.S.A., Mexico, and some Latin American markets, to consolidate as a global brand and continue striving to being number one on the podium every day.

At **JHK**, we make T-shirts, polos, sweatshirts, trousers, etc., enabling the foundation of companies and brands, garments that provide visibility to thousands of businesses, T-shirts that go with the our other garments so that you can play sport in the ideal kit for you, so that you can work comfortably and safely, so you grab attention, so that you can relax at home, to suit everyone... you will be comfortable whatever your preferences.

Our mission is to dress the world and that's not going to change. We continue to adapt to technologies, to the requirements of a market that clearly demands the best. We will continue to attempt to look after the planet to remain in the race and add to our experience. We cannot forget all those who are no longer with us due to the pandemic and who were also participants in our success. For them we will continue to contribute with all our effort to make this world better every day. This is why we want you to remain part of this race and that you join us on the podium every day.

Our success is clearly yours too.

Thank you very much!

Almost everything has changed since JHK was founded.

Telephones didn't have colour, they didn't have cameras, although they were more durable. We sent SMS', moved on to Blackberry chats, WhatsApp appeared, social networks were born... We don't watch the films or series like before, waiting for a specific day of the week, a certain time to enjoy the next instalment. Paying using a telephone sounded like fantasy, as was watching Hollywood films on a watch screen. Home purchasing was simply impossible, infomercials were about the extent of it. That a customer in the United States of America could see a production process in real time was idealistic. The only electric cars were radio-controlled and battery-powered. The term, sustainability, was still hard to understand.

Telecommunications, transportation, automation, corporate responsibility, the opening up of new markets around the world, the connection to the world. Practically everything has changed in 20 years. Even the most basic things have changed, we don't eat like 20 years ago, we take better care of ourselves, we care more about what our food contains.

However, some things remain unchanged. We want to be comfortable, wrapped up when it is cold, feel protected at work, and feel good about what we wear every day. If you are fan of a particular band, a destination, or a brand, you want it show it, for your t-shirt to speak for you and your tastes. If your company is a trendsetter, you want everyone to be out and about advertising your brand.

Anniversary

Of course, not even our garments are made from the same materials, nor produced in the same way as 20 years ago. We have managed to adapt ourselves to all these changes so, while essentially remaining the same, we follow the trends that lead to progress. 20 years is said to be no time at all, but these 20 years have been different.

They are probably the most dizzying years in our history. The pace of change in the world has been fast and constant, and **JHK** have managed to adapt to each and every one of those changes. This is thanks to our teams of people committed to our philosophy and values, to our customers, and the ability to embrace the world without fear and improve every day.

We are a global company that feels part of the change, and we won't allow any setbacks to distract us from our objectives and values. This is why we will continue to evolve, adapt, and create positive changes for the industry to satisfy all our customers in every country on every continent.

Thanks for being part of **JHK World**, we count on all of you for the years ahead and to continue providing value in both internally and for the wider world year on year.

All that's left to say is...

Congratulations!

Each WASH polo is "unique". Polo of the same color can have different shades as they are tinted with natural pigments and that is what makes them unique. For this reason, we recommend washing the garment separately, since each wash may lose color and acquire that aged tone.
